Definitions

- “Number of Students Who Began the Program” means the number of students who began a program who were scheduled to complete the program within 100% of the published program length within the reporting calendar year and excludes all students who cancelled during the cancellation period.
- “Students Available for Graduation” is the number of students who began the program minus the number of students who have died, been incarcerated, or been called to active military duty.
- “Number of On-time Graduates” is the number of students who completed the program within 100% of the published program length within the reporting calendar year.
- “On-time Completion Rate” is the number of on-time graduates divided by the number of students available for graduation.
- “150% Graduates” is the number of students who completed the program within 150% of the program length (includes on-time graduates).
- “150% Completion Rate” is the number of students who completed the program in the reported calendar year within 150% of the published program length, including on-time graduates, divided by the number of students available for graduation.
- “Graduates Available for Employment” means the number of graduates minus the number of graduates unavailable for employment.
- “Graduates Unavailable for Employment” means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
- “Graduates Employed in the Field” means graduates who beginning within six months after a student completes the applicable educational program are gainfully employed, whose employment has been reported, and for whom the institution has documented verification of employment. For occupations for which the state requires passing an examination, the six months period begins after the announcement of the examination results for the first examination available after a student completes an applicable educational program.
- “Placement Rate Employed in the Field” is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
- “Number of Graduates Taking Exam” is the number of graduates who took the first available exam in the reported calendar year.

-
- “First Available Exam Date” is the date for the first available exam after a student completed a program.
 - “Passage Rate” is calculated by dividing the number of graduates who passed the exam by the number of graduates who took the reported licensing exam.
 - “Number Who Passed First Available Exam” is the number of graduates who took and passed the first available licensing exam after completing the program.
 - “Salary” is as reported by graduate or graduate’s employer.
 - “No Salary Information Reported” is the number of graduates for whom, after making reasonable attempts, the school was not able to obtain salary information.

D: Student Right to Cancel

Sofia University Withdrawal and Refund Policy

Refunds for Withdrawing from Registration:

Withdrawal is defined as the dropping of one's entire program in a given term as differentiated from dropping some, but not all, of one's courses. First time students have the right to cancel the enrollment agreement and obtain a full refund of tuition charges paid (less non-refundable application fee and acceptance fee) if withdrawn within seven days of enrolling or through attendance at the first class-session, whichever is later.

A student is considered registered until the date on which written notice of withdrawal is received by the Office of the Registrar. A student's financial assistance is adjusted to reflect reductions in the student's overall budget. Excess financial aid is restored proportionately to the funds from which it was drawn before a refund is given.

According to federal regulations, Sofia University must use the withdrawal date for refund calculations as "either the date the student officially notifies the school that he or she is withdrawing or the last date of class attendance that the school can document." The University has adopted the following withdrawal policy to establish charges based on the amount of time completed in the enrollment period.

If the student has received federal student financial aid funds, the student is entitled to a refund of the monies not paid from federal student financial aid programs.

Refunds for Dropping Individual Classes:

For first time enrolling students, the University refunds tuition in full (not non-refundable application fee or non-refundable acceptance fee) for classes dropped before the first day of quarter (or up through the add/drop period). There is no refund of tuition for individual courses dropped after the last day of add/drop period. The add/drop period is usually the first week (Monday-Sunday) of each quarter.

Medical Emergency Tuition Refunds

For the students who have to withdraw for unforeseeable medical reasons, the refund will be given only before the mid-point of the term, and formal doctor's notes is required. The refund is prorated based on the date you begin the official withdrawal process.

Any request to change enrollment status in an entire program (i.e. withdraw, transfer) or to drop an individual class must be submitted in writing (with documentation if required) to the registrar's office.

Student's initial _____

Financial Aid Refunds and Return of Federal Funds:

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition. You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program. Students have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund.

“If the student is eligible for a loan guaranteed by the federal or state government and the student defaults on the loan, both of the following may occur: (1) The federal or state government or a loan guarantee agency may take action against the student, including applying any income tax refund to which the person is entitled to reduce the balance owed on the loan. (2) The student may not be eligible for any other federal student financial aid at another institution or other government assistance until the loan is repaid.”

Students who receive aid for which they are later determined to be ineligible will be responsible for the repayment of this aid to the appropriate source.

Title IV - Students who receive Title IV financial aid will have their refund calculated as required by regulation. Under the most recent reauthorization of the Higher Education Act of 1964, the return of federal funds has been separated from the calculation of refunds for institutional charges. The percentage of the return is based on the number of calendar days completed within an enrollment term. The calculation will be based upon the official withdrawal date.

Because students on leave are classified as withdrawn when certifying enrollment status for federal financial aid, any aid you receive must be subjected to the federal R2T4 return of funds formula. This means that if you received a refund check from the school, all or part of those "unearned" funds may need to be returned to Direct Loan. For those students who are eligible and receive federal financial aid, the following federal financial aid refund policy applies. The focus of the policy is to return the unearned portion of the federal financial aid for the enrollment period. The refund will be calculated based on the date you begin the official withdrawal process, the last date of the documented attendance or, for an unofficial withdrawal, the mid-point of the term or the last documented date of attendance. If a student withdraws from school on or before 60% of the term is complete, then the percentage of unearned Title IV federal aid shall be returned by the school and possibly by the student.

The following distribution of returned funds is as follows:

Federal Unsubsidized Stafford Loan	Federal PLUS/PPLUS Loan
Federal Subsidized Stafford Loan	Other Title IV aid programs
Federal Pell Grant	Private or institutional aid
FSEOG (Federal Supplemental Educational Opportunity Grant)	
Other federal sources	

Note: After the Federal Financial Aid refund, the student is responsible for any unpaid balance based on Sofia's refund policy.
