

## Health Insurance

It is highly recommended that students maintain an active student health insurance policy throughout their studies in the US.

Due to the high cost of health care in the United States, being without health insurance can be severely detrimental to a student if they fall ill or if they are injured in an accident.

The resources listed below are not endorsed or recommended by the university but are provided as a resource only. As every student has their own unique set of health needs and financial requirements, it is recommended that students also conduct their own research on insurance companies who best meet their needs.

If you do not have health insurance, here are some suggested insurance providers that may be of interest:

### **International Student Insurance - ISI**
